

We Specialise in High Precision Laser Decap Solution

LASER DECAP
Global Etch II 系列

-  **Intuitive**
-  **Easy to learn & use**
-  **Start Decaping immediately**
-  **Amazing solutions**
-  **No Damage Wires**
-  **On Copper, Gold, Silver/Gold wires**

Offers Comprehensive Range of Products &
Services that encompass all IC Decapsulation!

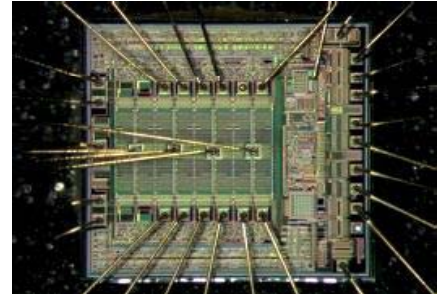

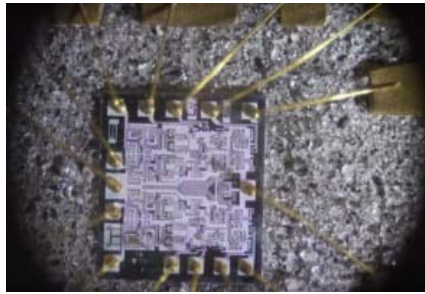

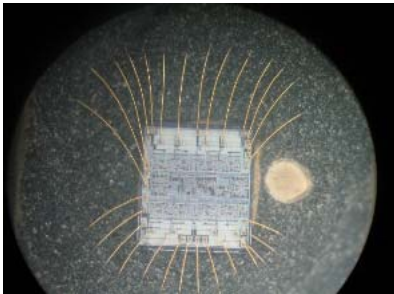

We Specialise in High Precision Laser Decap Solution

LASER DECAP
Global Etch II 系列

Extremely User-friendly, Easy to use user interface

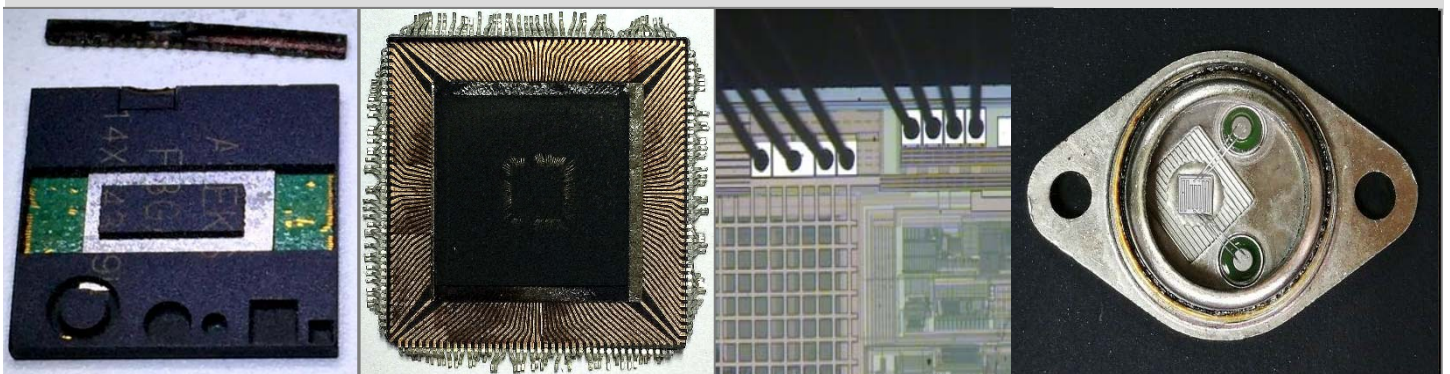

A key switch in both Chinese and English

Laser Decap App

- *Using Laser ablation Technology *For Complex shaped Cavities
- *Consistency in all devices *No Acid needed for second Bond
- *High Laser Safety features*On Copper, Gold, Silver / Gold wires
- *Decap high precision *Will not damage silver on leadframe
- *Decap high efficiency *Free of consumables
- *Free maintenance *It's Repeatable

LASER DECAP
Global Etch II 系列

- *Concise User Interface
- *Professional Decap software
- *Powerful friendly interface
- *Red preview Decap position
- *Language:English/Chinese
- *Powerful DSP control, provide super stable laser decap process.
- *Easy to use and learn
- *Can be customized
- *Fool drawing graphics

Specification	
Laser Details	High Quality Laser
Power	Average output power 20watt
Class Safety	Class 1 Laser Safety
Fume and Dust	Fume and dust extractor Glass viewing window protects from laser radiation
